Subject: Draft Oil and Gas Summary for transition
[Oil and Gas.docx](#)
[Issue Paper Template General 2.docx](#)

Hi, all:

Thanks to those of you who have helped with this so far. While this draft still has a few rough spots, I know folks are anxious to get a look at it so I thought I would send it now.

I have a few placeholders: I can look up our emergency authorities myself (although I would also welcome help!) but I definitely need help with the expected date for the ICR and the current legal brouhahas.

As you know, this has a maximum of 2 pages and a deadline of Tuesday.

Thanks again for all your help!

Paula Van Lare
